bio-based

We make the world more colourful.

We produce the item to your wishes choosing from a variety of standard colours or special requirements (colour sample or Pantone). Be it translucent, opaque, daylight colours, with glitter or metallic effect. There are no limits to your colour request. All our colours correspond to the applicable regulations and directives in Germany and the EU. Address the realization of your ideas to us with confidence.

Legal notice.

Our catalogue is only intended for buyers who wish to use the goods and services exclusively within the scope of their independent professional, commercial, official or business activities and not for private individuals. All information on goods and services is non-binding and does not constitute a legally binding contractual offer, but only a so-called „invitatio ad offerendum“ (an invitation to submit an offer). **All prices stated in the catalogue are non-binding guide prices in EUR (as at the back of the catalogue); in addition, if applicable, there are costs for finishing and other ancillary costs such as packaging, shipping and transport costs, customs duties etc., as well as (if applicable) the statutory value added tax.** The product illustrations are not binding. We will be pleased to send you a sample for a precise assessment of the guaranteed properties and functions as well as the colour accuracy of a product. This sample is binding for placing an order. In the case of articles with advertising imprint, we will be pleased to provide you with a proof sample for binding approval of the print, the printing stand and

the product characteristics. All articles with customer imprint shown in this catalogue are only for the performance presentation of the printing technology and for reference purposes. The rights to the illustrated logos and brand names as well as to the illustrated custom-made products belong exclusively to the respective copyright/brand owners. Please note that in the case of set items which are marked „Made in Germany“ or „Made in Europe“, it is possible that not all individual components of the set are manufactured in Germany or Europe. However, it goes without saying that the main manufacturing or processing steps for sets marked accordingly are carried out in Germany or Europe (depending on the marking). Only the laws of the Federal Republic of Germany apply to the contractual relationship. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German international private law (IPR) shall not apply. Errors and misprints reserved.

Benefits.

- ✓ High quality standards.
- ✓ Short transport routes.
- ✓ Planning reliability.
- ✓ Fast delivery times.
- ✓ Well-thought-out, functional product design.
- ✓ Fast and uncomplicated order processing.
- ✓ Job security.

QUALITY for life.

Thinking ahead and developing further. Our clear competitive advantage is our in-house production at the sites in Bavaria, Germany and Europe. Through state-of-the-art production techniques and dedicated employees, we are able to offer the best quality, high efficiency, competitive prices and an exemplary eco-balance. Individual processes and subsections can be monitored precisely and production sequences can be matched – which offers additional advantages: short delivery times, high project flexibility and reliable adherence to schedules.

Quality Made in Germany.

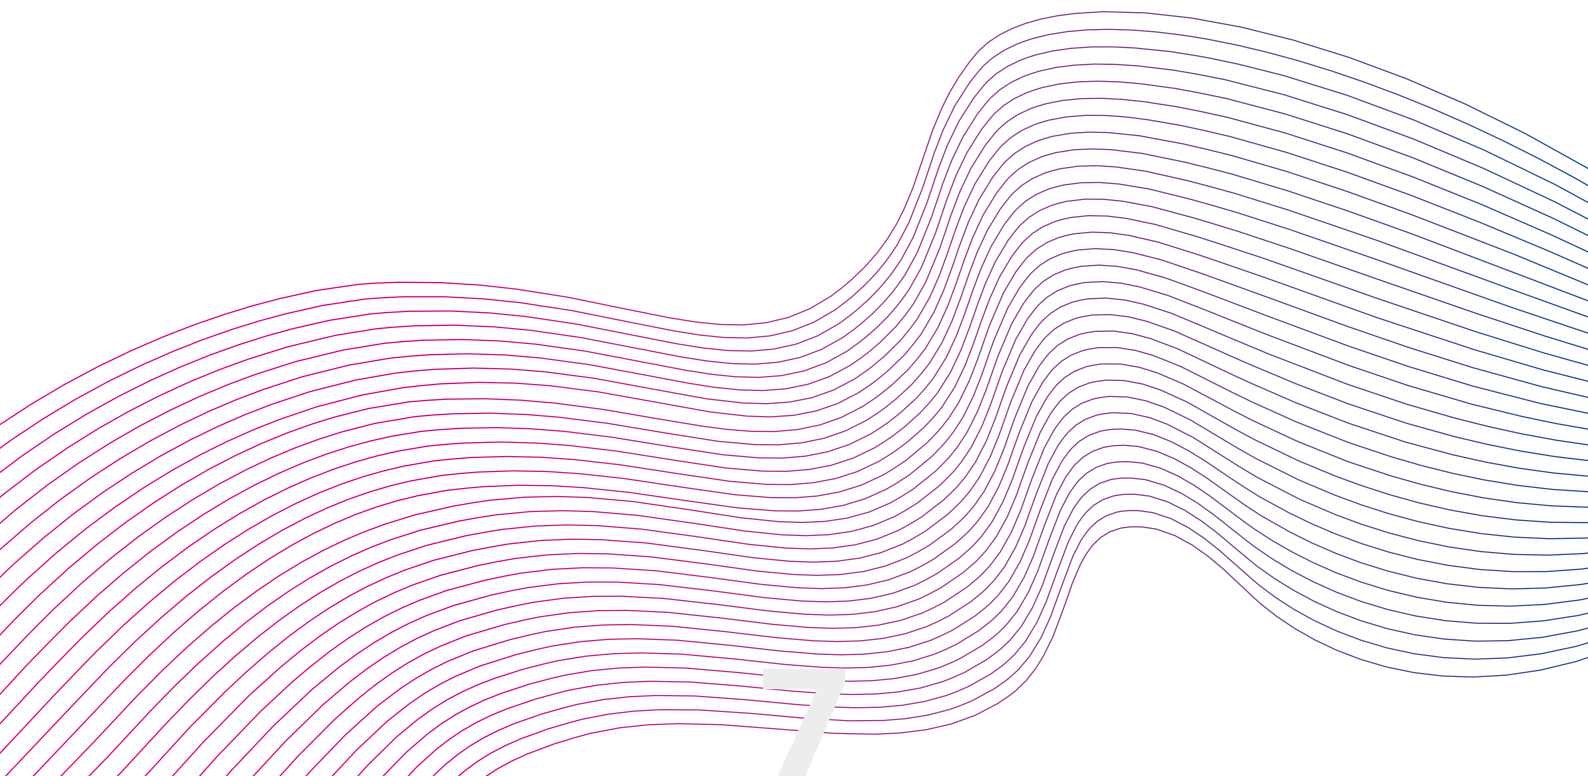

Quality Made in Europe.

GLOBAL Sourcing.

Everything, worldwide, simple. Loyal to our location, we strengthen production »Made in Germany« - at the same time, we follow international innovations and trends to expand our extensive product range. As an experienced importer, we have a well-developed global network of suppliers and partners. We thus have an excellent global network and use innovative supply chain management within reliable international structures.

HIGH TIME FOR NEW THINKING.

In economic, ecological and social terms: Because what we do today determines what the world will look like in future. We are therefore committed to a holistic sustainability strategy and to products that fulfil these standards.

The box has had its day? Give it here!

We recycle together! Once our boxes have served their purpose, we take them back free of charge and recycle them completely. The recycled material is turned into a wonderful new item and the cycle starts all over again.

By using recycled material, we actively conserve resources. In this way, we increase the sustainability of our products and set an example for the responsible use of plastic. This is our contribution to protecting the environment.

Many more products **already planned!**

We are constantly developing our product range. In close cooperation with a wide variety of restaurant operators, our products are optimally tailored to the needs of the catering trade.

01045 Shaker „Protein“, small

Prepare a protein shake after the work out. This transparent shaker with embossed scale divided in steps of 50 ml and screw cap with lockable drinking opening contains a removable screen so that the liquid and the shaking powder mix optimally. The shaker can be completely disassembled and therefore cleaned thoroughly. Capacity: 0.4 litres.

01855 Shaker „Protein“, Pro, 0.40 l, Version 1

Shake it up! Ideal for a protein shake after training. This shaker contains a closable drinking aperture and an embossed measurement scale in 50ml increments. It also comes with a removable sieve, so a thorough shake is all that's needed for the perfect mix of protein powder and liquid. This shaker also has a screw-off compartment which can be filled separately. It can be completely disassembled, making it very easy to clean. Fill quantity (shaker without additional compartment): 0.4 litres.

01287 Insulated soup container „Take Away“

The „Take Away“ soup container is ideal for transporting and storing all kinds of foods - especially soups. The lower section consists of double-walled stainless steel. Thanks to the vacuum insulation, the temperature inside the container stays constant for a long time. The container is closed with an internal and external lid. Both are screw-fastening. The internal lid has a silicone seal and makes the container leakproof. Incl. folding spoon, which can be stored in the internal lid. Capacity: 0.5 litre.

Make a difference together - with ISCC!

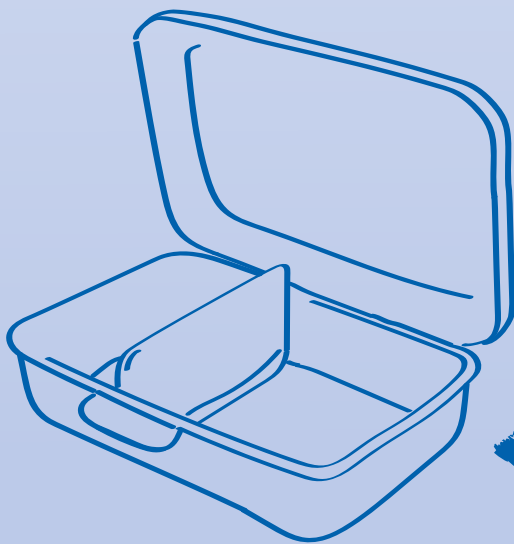

What is ISCC?

ISCC (= International Sustainability and Carbon Certification) is an independent, global certification system on a voluntary basis covering the entire supply chain. It identifies the extraction of resource-conserving raw materials and the ecologically valuable products made from them.

Why ISCC PLUS?

ISCC PLUS is the certification system for globally operating companies in non-regulated markets that offer final products.

Our ISCC PLUS certified polypropylene.

87%*
**BIO-CIRCULAR
MATERIAL.**

Bio-circular Material is obtained from waste sourced from forestry, agriculture and the food industry. Raw materials include: waste cooking oil, straw, forestry waste, pine oil.

* Roughly 10% addition of conventional raw material required for production and roughly 3% addition of colour pigments.

Quality
Made in
Germany.

Our items made from ISCC material.

Sustainable raw material instead of fossil resources.

Our products are made using climate-positive processes with our own green electricity at our site in Germany. We are committed to the responsible use of plastics!

Glass engraving.

The high-quality finishing for gifts.

NEW! Glass bottles now also with individual laser engraving.

We now offer a new finishing technique, glass engraving. This method offers numerous advantages and is the ideal choice for presenting a unique gift.

✓ **Noble optics and high-quality finishing option.**

Glass engraving gives glass bottles a noble look, ensures an unmistakable appearance and remains in the memory for a long time.

✓ **Durability of the engraving.**

One of the great advantages of glass engraving is its longevity. Unlike other finishing methods that can fade over time, engraving remains permanent.

✓ **Versatility: Suitable for different types of glass bottles.**

Glass engraving is suitable for a wide range of glass bottle types and adds a touch of elegance.

✓ **Suitable for the dishwasher.**

Don't worry about caring for your glass engraved bottles. They are dishwasher safe and retain their quality even after many washings.

01233 Glass bottle with sleeve „Ocean“ 0,36 l

Let's recycle together: Our innovative recycling process.

1. Return.

We offer high-quality plastic items made using robust materials. But once our products have fulfilled their duties, we are happy to receive them back free of charge, and recycle them fully. All the plastic items we produce can be cleaned and sent back to us at the end of their life.

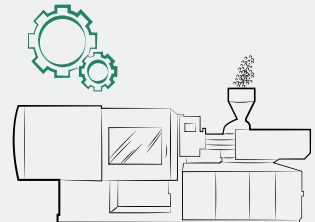

2. Separation by type.

We separate the items to be recycled by colour and type, and grind them up. The resulting granular material enters the production process.

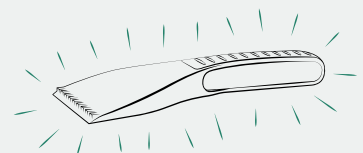

3. Delivery into production.

Due to the separation-by-type process and the unchanged structure of the plastic, the recycle can be added back into the production process without problems. Hardly any other material has such incredible properties.

4. A new item.

The recycle is used to make a new item, and the cycle begins again. Recycled materials that we don't use ourselves are made available for the production of secondary products, leading to the creation of dustbins, for example.

Products made from 100% recycled material.

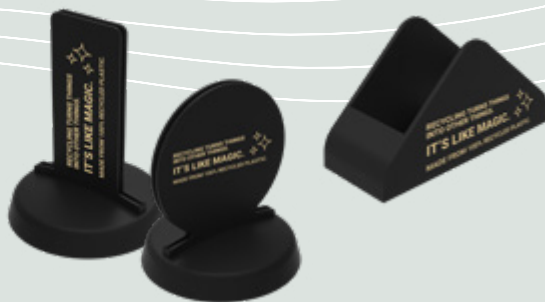

Quality
Made in
Germany.

The new recycling series impresses with high-quality materials and all that „Made in Germany“. The elegant products offer space for personalised messages and are easy to clean and robust.

Valuable trays

Anti-slip honeycomb structure provides a particularly secure grip. Both the top and bottom sides are perfectly suited for IMould finishing.

Menu card- and Beer coaster holder

High-quality menu card holders (square or round) and beer coaster holders with large advertising space on both sides.

Ice scraper

Remove ice from windscreens in no time at all. Sturdy and handy ice scrapers in various designs and with a large advertising space.

Car Organizer

For those who love organisation. Practical organizer for less chaos in the car.

Practical helpers

Whether shopping trolley tokens or tyre tread gauges, these gadgets make everyday life easier and offer the perfect place for advertising.

Through the use of recycled materials, we can actively conserve resources. This increases the sustainability of our products and sets an example for the responsible handling of plastics.

NEW!

NEW!

02065 Barbecue skewer „Picante“, set of 4

This makes barbecuing really fun! The 4-piece barbecue skewer set made of high-quality stainless steel is a must for every barbecue party. The highlight is that by pressing on the movable stainless steel sleeve, it can be pushed forward and thus grilled and vegetable pieces fall easily and cleanly from the skewer. However, a small elevation at the tip of the spit prevents the sleeve from falling off the product. A great and useful gadget for all barbecue fans.

01013 Ice scraper „TopGrip - Digital Vision“

A cleverly designed ice scraper - MADE IN GERMANY. The shape of the ice scraper makes it comfortable to use. The anti-slip material on the handle helps to efficiently and quickly scrape off any ice on the windshield. The jagged edges on the top side of the ice scraper easily help to remove thick layers of ice. The handle has one printable plate on each side which can be used for uv-digital printing, thus creating effective advertising.

04318 Ice scraper „Ergonomic“

Very sturdy ice-scraper with elegant curve. At one end has a smooth scraping edge and at the other end has scraping teeth for stubborn ice on the windows of the car. Due to it's unusual shape, the ice scraper fits perfectly in the hand, thus increases the impact. The rounded edges will help avoid uncomfortable pressure points on the hand and scratches on the glass.

SAFETY for life.

Safety for life – competent solutions for challenging issues.

Stay safe, stay healthy. With the elastocare brand, we present the expansion of our range to include a variety of protective items, including our in-house production of facemasks »Made in Germany«. Originally established to deal with supply bottlenecks during the corona pandemic, our specialisation in this field enables us to respond swiftly and flexibly to challenging issues. We stand for fast and uncomplicated production in compliance with the highest quality standards.

Respiratory Mask.

FFP2 and FFP3.

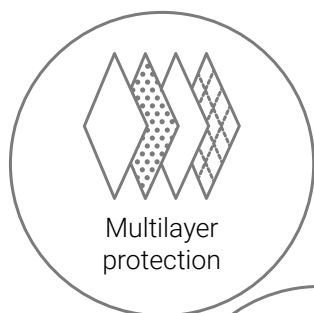

Quality
Made in
Germany.

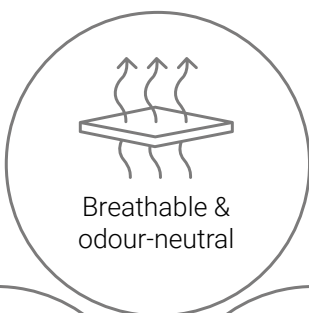

CERTIFIED

In accordance with Regulation (EU) 2016/425
and the European EN 149:2001 + A1:2009 standard.

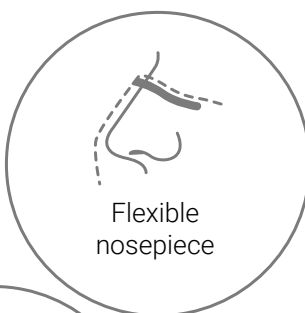

ALSO INCLUDES PRINTED MASKS.

Our quality promise.

- Production and Material – 100% Made in Germany.
- High-quality processing in accordance with European standards.
- Highest standards with regard to environmentally-friendly and hygienic production processes, packaging and storage.
- Uncompromising and consistent quality checking for the most exacting requirements and security.

Your benefits.

- The use of high-quality German filter fabrics means that there is no need for redundant additional filter layers. This makes breathing and the long-term wearing of the mask much more pleasant than with the majority of other models.
- Safe and effective protection for the wearer against particles, liquids and solid aerosols.
- Free from glass fibres, latex and odours.
- Extra skin-friendly non-woven fabric with very low breathing resistance, a higher level of comfort and an exceptional fit.

FFP2 and FFP3 masks from our own production.

01492 Mask holder „Comfort“, medium

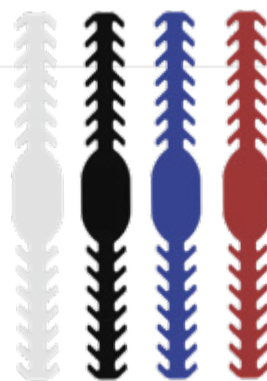

Avoid painful ears after wearing your mask for a long time. This holder shifts the load away from sensitive ears and towards the back of the head. It is suitable for use with all commonly used breathing masks. Thanks to the number of hooks, your mask can be perfectly adapted to fit the size of your head. The mask holder can be cleaned with a cloth and detergent. It can also be cleaned with disinfectant. This ensures that it can be reused any number of times.

01430 Safety goggles „Safety“

These „Safety“ protection glasses will win you over with their functionality and design. The scratch-resistant lenses are made from high-quality tritan, ensuring that they can deliver high comfort for a long time. They are break-resistant and offer reliable all-round protection for the eyes thanks to their raised lenses. Also suitable for people who wear glasses. Individually boxed. Compliant with (EU) regulation 2016/425 on personal protective equipment, Class II (protection against moderate risks) EN 166:2001.

01522 Protection glasses „Protection“

The „Protection“ protective glasses will impress you with their functionality and design. The TPE frames fit the contours of the face. The exceptionally clear lenses are made of PC and feature an anti-scratch-coating. The integrated ventilation slits in the frame prevent the glasses from fogging. The wide and stretchy strap can be flexibly adjusted in length using the tabs, offering exceptional comfort. Certified in line with (EU) Regulation 2016/425 for personal protective equipment, category II (protection against medium risks) EN 166:2001.

CUSTOMISED products.

We turn your ideas into reality with unique branding.

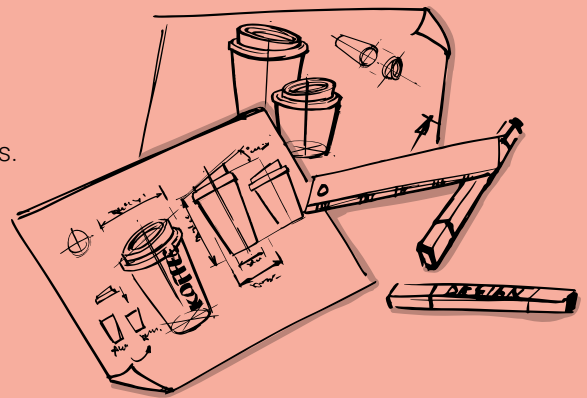

We create and develop the complete solution based entirely on your ideas and requirements, ensuring that everything is 100% customised and from a single source. We give your ideas a special edge. Within a very short time, we are able to produce unique articles ready for series production. We place particular emphasis on customer proximity and personal consultation throughout the entire process.

Preparation for production.

Development, technology and quality.

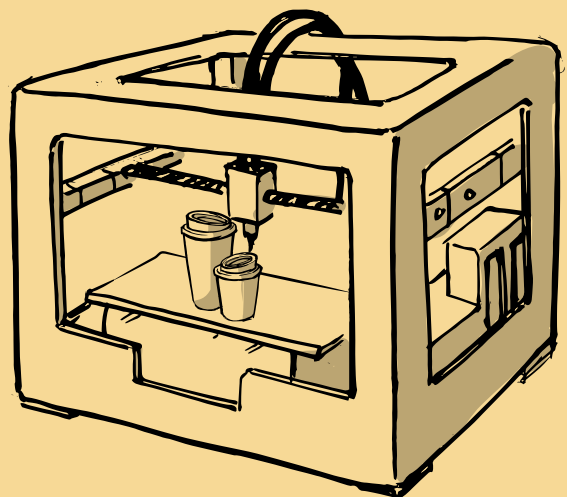

- Creation of a 3D design and determination of the printing dimensions.
- Inspection and project approval by Factory Audit (manufacturer qualities, QM system, production execution).
- Finalisation of printing dimensions and embossing fields.
- Creation of 3D prototypes and samples.
- Conduct of adhesive and behavioural testing.
- Sampling of the desired colour shade.

The manufacturing process.

Production and finishing.

- Tool sampling.
- Finalisation of the quantities.
- Production in the injection moulding shop in 3-shift operation.
- Customer approval based on a pre-production sample in the ongoing manufacturing process.
- Extensive visual inspection of all production parts.
- Determination of the finishing process in the print shop.
- Production in 2-shift operation.
- Meticulous quality control of the printed products.
- Production of instructions, stickers, etc.
- If necessary, assembly of individual parts.
- Quality control.

Completion.

Service from the beginning to the end of the order. And beyond.

- Final product inspection.
- Packing in polybags and outer cartons.
- Labelling according to required standard.
- On-time delivery, if desired in partial deliveries.

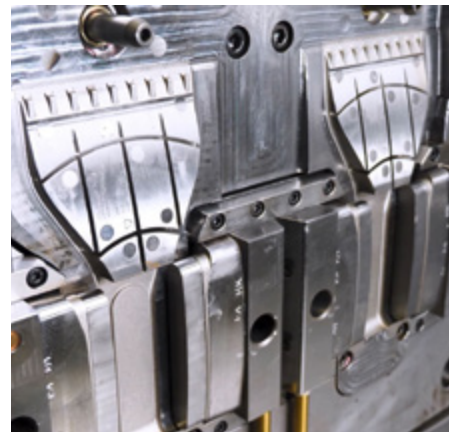

TOOLING.

Customised solutions in all branches of industry.

Whether it is 3D prototyping, individual or overall project work, technical advice, repairs or the supply of spare parts - elasto offers individual options as well as comprehensive service from a single source.

Flexibility and speed are top priorities at elasto toolmaking: Thanks to „Made in Germany“ production and modern machinery, 5-axis CNC milling, wire cutting, deep-hole drilling, die-sinking EDM and rapid prototyping are possible.

Guidelines & Regulations.

Toys.

All offered children's toys comply with the European Directive 2009/48/EC on the safety of toys and the EN 71 series of standards. Toys may be unsuitable or dangerous for children of a certain age due to their function, dimensions, features, characteristics or other reasons. To further improve safety, the toy comes with warnings informing the consumer of the potential danger posed by the toy.

The following are the warnings that apply to the individual articles. Next to the offered items in this catalogue are small numbers that match the listed warnings.

1. Attention! Not suitable for children under 3 years, because of small parts that can be swallowed. Choking hazard!
2. Attention! Not suitable for children under 3 years. Risk of injury due to long cord.
3. Attention! Not suitable for children under 3 years. Danger of strangulation and tripping due to long cord. Do not use near power lines or during thunderstorms.
4. Attention! Use under the direct supervision of adults. Not suitable for children under 3 years. Danger of falling! The Schneeflitzy requires great skill in steering and braking, so learn to use it on flat, safe terrain. Use only by one person at a time.
5. Attention! Use only in shallow water under adult supervision. This is not a buoyancy aid! No protection against drowning!
6. Attention! Do not aim at eyes or face.
7. Attention! Use under the direct supervision of adults. Liquid can be swallowed!
8. Attention! Sharpener contains a sharp edge due to its function. Risk of injury!
9. Attention! Not for transporting children!

0+ to 8+

All information with „+“ is to be understood as an age recommendation or as an educational note.

Sporting items, fan items, decorative items.

The sports, fan and decorative items offered in this catalogue are sold as such. In order to prevent possible confusion with toys, these items are marked with the following inscription.

Sport „Sporting goods - Not toys!“

Fan „Fan items - Not a toy!“

Deco „Decorative items - Not a toy!“

REACH.

All offered articles comply with the European Regulation No. 1907/2006, Registration, Evaluation, Authorisation and Restriction of Chemicals. The EU's objective is to produce and use chemicals in such a way as to minimise adverse effects on human health and the environment.

Customer information.

We hereby confirm, in accordance with Article 59 (1, 10) of the EC- Regulation number 1907 / 2006 (REACH), that articles delivered by us do not contain substances of the candidate list above 0.1% mass. We undertake to regularly compare our products with the substances specified in the candidate list in accordance with the REACH Regulation. Insofar as we determine that our products comply with Art. 33, we will inform you about this immediately and take appropriate measures in individual cases.

General information.

Please understand that we do not have the items in stock in all colours of our standard colour palette. Ask our sales staff for the available colours, minimum quantities and colour surcharges. We print exclusively with physiologically harmless inks. The disposal of the paints and screens is carried out in a closed system. Screens are recycled after use for technical reasons. For repeat orders, the sieve must be recreated and calculated.

For imprints, we need a copyable black-and-white original or a film 1:1, with transfer motifs reversed. In the event of necessary changes to your originals or multi-colour films, we will charge you the lithographic costs incurred by us. However, we will inform you in advance and make the changes only with your permission. It is also possible to create individual designs and final drawings on request. These will be invoiced by us at cost. An exact reproduction of the desired shade depends on the colour and condition of the item. For darker surfaces, white may be required.

Deliveries to new customers and abroad are made against prepayment or cash on delivery or irrevocable letter of credit.

The contractual relationship shall be governed exclusively by the laws of the Federal Republic of Germany. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German Private International Law (IPR) do not apply.

Errors and misprints excepted.

Current Situation.

Significant global constraints and delays remain in global supply chains. In addition, there is a shortage of freight rates from Asia to Europe. These circumstances are beyond our control and we have no control over them. Despite the best possible planning and constant communication with our suppliers and freight forwarders, delivery delays and price adjustments due to increased procurement costs unfortunately may continue indefinitely. Should this be the case, we reserve the right to adjust the prices and/or delivery dates mentioned in the catalogue accordingly. Unfortunately, this cannot currently be avoided and we ask for your understanding.
