

PROMOTION FOR LIFE

elasto makes brands tangible since 1980 and offers solutions for transporting custom messages – with the service promise of a family-owned company.

Our diverse repertoire guarantees an all-round positive brand experience: Supported by the balance of in-house production of durable plastic items and the import of high-quality products within an established international supplier network. Our focus is on articles that inspire through their usefulness – and also in terms of sustainability.

Our new logistics and production centre in numbers.

Our top products manufactured in Germany.

Hand-picked by our sales experts.

Discover our selection of "Made in Germany" products, selected by our sales experts. Each item stands for first-class quality and excellent service. Look forward to products that impress with their durability and great design.

Have fun discovering them!

Matthias P.

"We want to present items with high quality standards. Every product in our catalogue has been selected with durability and timeless design in mind."

Ulli S.

"From small everyday helpers to elaborate customised products - everyone will find what they are looking for in our "Made in Germany" range."

Hans-Jürgen H.

"We place great importance on ensuring that each product is not only visually appealing, but also convincing in terms of functionality and user-friendliness."

Philipp B.

"Our 'Made in Germany' range is also impressive in terms of sustainability: We rely on environmentally friendly production processes and place special focus on the sustainable manufacturing of plastics."

Quality.

We make the world more colourful.

We produce the item to your wishes choosing from a variety of standard colours or special requirements (colour sample or Pantone). Be it translucent, opaque, daylight colours, with glitter or metalic effect. There are no limits to your colour request. All our colours correspond to the applicable regulations and directives in Germany and the EU. Address the realization of your ideas to us with confidence.

Legal notice.

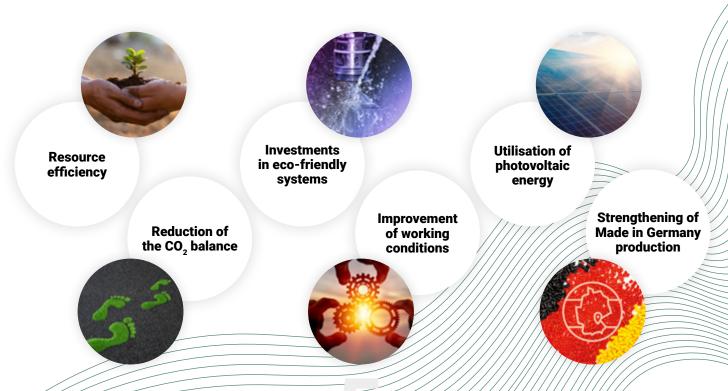

Our catalogue is only intended for buyers who wish to use the goods and services exclusively within the scope of their independent professional, commercial, official or business activities and not for private individuals. All information on goods and services is non-binding and does not constitute a legally binding contractual offer, but only a so-called "invitatio ad offerendum" (an invitation to submit an offer). All prices stated in the catalogue are non-binding guide prices in EUR (as at the back of the catalogue); in addition, if applicable, there are costs for finishing and other ancillary costs such as packaging, shipping and transport costs, customs duties etc., as well as (if applicable) the statutory value added tax. The product illustrations are not binding. We will be pleased to send you a sample for a precise assessment of the guaranteed properties and functions as well as the colour accuracy of a product. This sample is binding for placing an order. In the case of articles with advertising imprint, we will be pleased to provide you with a proof sample for binding approval of the print, the printing stand and

the product characteristics. All articles with customer imprint shown in this catalogue are only for the performance presentation of the printing technology and for reference purposes. The rights to the illustrated logos and brand names as well as to the illustrated custom-made products belong exclusively to the respective copyright/brand owners. Please note that in the case of set items which are marked "Made in Germany" or "Made in Europe", it is possible that not all individual components of the set are manufactured in Germany or Europe. However, it goes without saying that the main manufacturing or processing steps for sets marked accordingly are carried out in Germany or Europe (depending on the marking). Only the laws of the Federal Republic of Germany apply to the contractual relationship. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German international private law (IPR) shall not apply. Errors and misprints reserved.

FOR NEW THINKING.

In economic, ecological and social terms: Because what we do today determines what the world will look like in future. We are therefore committed to a holistic sustainability strategy and to products that fulfil these standards.

The Made in Germany designation of origin is highly regarded and is considered a guarantee of quality worldwide. After decades in which manufacturing boomed in the Far East, recent years have seen a noticeable shift in thinking. There has been an increasing focus on regional production for some time now. After all, producing domestically means supporting German companies and thus complying with German quality standards. This results in shorter production times, flexible ordering processes and many other advantages.

Quality Made in Germany.

save tomorrow.

Put an end to unnecessary waste with our new reusable takeaway boxes. They are the sustainable alternative to disposable packaging and offer enough room to hold and safely transport both warm and cold foods! Our products are 100% **MADE IN GERMANY**.

Does it taste best at home?

Our menu boxes for the portion to go.

The world looks much better with a coffee in hand.

Many more products already planned!

We are constantly developing our product range. In close cooperation with a wide variety of restaurant operators, our products are optimally tailored to the needs of the catering trade.

The box has had its day? Give it here!

We recycle together! Once our boxes have served their purpose, we take them back free of charge and recycle them completely. The recycled material is turned into a wonderful new item and the cycle starts all over again.

By using recycled material, we actively conserve resources. In this way, we increase the sustainability of our products and set an example for the responsible use of plastic. This is our contribution to protecting the environment.

Also available without separating tray (05299).

What is ISCC?

ISCC (= International Sustainability and Carbon Certification) is an independent, global certification system on a voluntary basis covering the entire supply chain. It identifies the extraction of resource-conserving raw materials and the ecologically valuable products made from them.

Why ISCC PLUS?

ISCC PLUS is the certification system for globally operating companies in non-regulated markets that offer final products.

Our ISCC PLUS certified polypropylene.

Bio-circular Material is obtained from waste sourced from forestry, agriculture and the food industry. Raw materials include: waste cooking oil, straw, forestry waste, pine oil.

Our items made from ISCC material.

 $^{{\}rm * Roughly \, 10\% \, addition \, of \, conventional \, raw \, material \, required \, for \, production \, and \, roughly \, 3\% \, addition \, of \, colour \, pigments.}$

Alternatively also available in bioplastic (15244).

Plastic/Polystyrene 45 mm x Ø 320 mm

Let's recycle together: Our innovative recycling process.

1. Return.

We offer high-quality plastic items made using robust materials. But once our products have fulfilled their duties, we are happy to receive them back free of charge, and recycle them fully. All the plastic items we produce can be cleaned and sent back to us at the end of their life.

2. Separation by type.

We separate the items to be recycled by colour and type, and grind them up. The resulting granular material enters the production process.

3. Delivery into production.

Due to the separation-by-type process and the unchanged structure of the plastic, the recyclate can be added back into the production process without problems. Hardly any other material has such incredible properties.

4. A new item.

The recyclate is used to make a new item, and the cycle begins again. Recycled materials that we don't use ourselves are made available for the production of secondary products, leading to the creation of dustbins, for example.

Products made from 100% recycled material.

The new recycling series impresses with high-quality materials and all that "Made in Germany". The elegant products offer space for personalised messages and are easy to clean and robust.

Valuable trays

Anti-slip honeycomb structure provides a particularly secure grip. Both the top and bottom sides are perfectly suited for IMould finishing.

- ✓ Made from recycled material.
- ✓ BPA free and without harmful plasticisers.
- ✓ Individually finishable.
- ✓ Production with our own green electricity and 100% recyclable.
- Sustainable production in Germany.

Menu card- and Beer coaster holder

High-quality menu card holders (square or round) and beer coaster holders with large advertising space on both sides.

Car Organizer

For those who love organisation.

Practical organizer for less chaos in the car.

Ice scraper

Remove ice from windscreens in no time at all. Sturdy and handy ice scrapers in various designs and with a large advertising space.

Practical helpers

Whether shopping trolley tokens or tyre tread gauges, these gadgets make everyday life easier and offer the perfect place for advertising.

Through the use of recycled materials, we can actively conserve resources. This increases the sustainability of our products and sets an example for the responsible handling of plastics.

04317 Tick card

The useful and flat card will pester the miniature vampires. Easy removal of ticks by means of the two slots at the corners. The built-in magnifying glass can then be used to check if the arachnid has been completely removed.

For every pair of "Beach" sunglasses, employees of The Honu Movement collect and recycle 2 waste single-use plasticbottles from the ocean.

> CERTIFIED PARTNER PFP-2101448

01623 Sunglasses "Beach" clean-up

2 waste single-use plastic bottles from the ocean.

What The Honu Movement is all about...

Removing plastic. We employ our own staff to collect plastic from the

Reusing plastic. We process the collected plastic using certified local recycling systems.

Avoiding plastic. Dedicated teachers teach children about sustainable lifestyle.

Combatting poverty. We provide fair jobs for the poorest of the poor.

We turn your ideas into reality with unique branding.

We create and develop the complete solution based entirely on your ideas and requirements, ensuring that everything is 100% customised and from a single source. We give your ideas a special edge. Within a very short time, we are able to produce unique articles ready for series production. We place particular emphasis on customer proximity and personal consultation throughout the entire process.

Preparation for production.

Development, technology and quality.

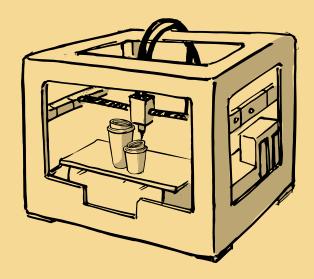

- Creation of a 3D design and determination of the printing dimensions.
- Inspection and project approval by Factory Audit (manufacturer qualities, QM system, production execution).
- · Finalisation of printing dimensions and embossing fields.
- Creation of 3D prototypes and samples.
- · Conduct of adhesive and behavioural testing.
- Sampling of the desired colour shade.

The manufacturing process.

Production and finishing.

- · Tool sampling.
- · Finalisation of the quantities.
- Production in the injection moulding shop in 3-shift operation.
- Customer approval based on a pre-production sample in the ongoing manufacturing process.
- Extensive visual inspection of all production parts.
- Determination of the finishing process in the print shop.
- Production in 2-shift operation.
- Meticulous quality control of the printed products.
- Production of instructions, stickers, etc.
- If necessary, assembly of individual parts.
- · Quality control.

Completion.

Service from the beginning to the end of the order. And beyond.

- · Final product inspection.
- · Packing in polybags and outer cartons.
- · Labelling according to required standard.
- · On-time delivery, if desired in partial deliveries.

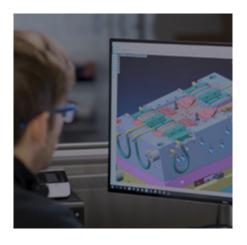

Customised solutions in all branches of industry.

Whether it is 3D prototyping, individual or overall project work, technical advice, repairs or the supply of spare parts - elasto offers individual options as well as comprehensive service from a single source.

Flexibility and speed are top priorities at elasto toolmaking: Thanks to "Made in Germany" production and modern machinery, 5-axis CNC milling, wire cutting, deep-hole drilling, die-sinking EDM and rapid prototyping are possible.

Guidelines & Regulations.

Toys.

All offered children's toys comply with the European Directive 2009/48/EC on the safety of toys and the EN 71 series of standards. Toys may be unsuitable or dangerous for children of a certain age due to their function, dimensions, features, characteristics or other reasons. To further improve safety, the toy comes with warnings informing the consumer of the potential danger posed by the toy.

The following are the warnings that apply to the individual articles. Next to the offered items in this catalogue are small numbers that match the listed warnings.

- Attention! Not suitable for children under 3 years, because of small parts that can be swallowed. Choking hazard!
- 2. Attention! Not suitable for children under 3 years. Risk of injury due to long cord.
- 3. Attention! Not suitable for children under 3 years.

 Danger of strangulation and tripping due to long cord.

 Do not use near power lines or during thunderstorms.
- 4. Attention! Use under the direct supervision of adults. Not suitable for children under 3 years. Danger of falling! The Schneeflitzy requires great skill in steering and braking, so learn to use it on flat, safe terrain. Use only by one person at a time.
- Attention! Use only in shallow water under adult supervision. This is not a buoyancy aid! No protection against drowning!
- 6. Attention! Do not aim at eyes or face.
- 7. Attention! Use under the direct supervision of adults. Liquid can be swallowed!
- 8. Attention! Sharpener contains a sharp edge due to its function. Risk of injury!
- 9. Attention! Not for transporting children!

0+ to 8+

All information with "+" is to be understood as an age recommendation or as an educational note.

Sporting items, fan items, decorative items.

The sports, fan and decorative items offered in this catalogue are sold as such. In order to prevent possible confusion with toys, these items are marked with the following inscription.

Sport "Sporting goods - Not toys!" **Fan** "Fan items - Not a toy!" **Deco** "Decorative items - Not a toy!"

REACh.

All offered articles comply with the European Regulation No. 1907/2006, Registration, Evaluation, Authorisation and Restriction of Chemicals. The EU's objective is to produce and use chemicals in such a way as to minimise adverse effects on human health and the environment.

Customer information.

We hereby confirm, in accordance with Article 59 (1, 10) of the EC-Regulation number 1907 / 2006 (REACh), that articles delivered by us do not contain substances of the candidate list above 0.1% mass. We undertake to regularly compare our products with the substances specified in the candidate list in accordance with the REACh Regulation. Insofar as we determine that our products comply with Art. 33, we will inform you about this immediately and take appropriate measures in individual cases.

General information.

Please understand that we do not have the items in stock in all colours of our standard colour palette. Ask our sales staff for the available colours, minimum quantities and colour surcharges. We print exclusively with physiologically harmless inks. The disposal of the paints and screens is carried out in a closed system. Screens are recycled after use for technical reasons. For repeat orders, the sieve must be recreated and calculated.

For imprints, we need a copyable black-and-white original or a film 1:1, with transfer motifs reversed. In the event of necessary changes to your originals or multi-colour films, we will charge you the lithographic costs incurred by us. However, we will inform you in advance and make the changes only with your permission. It is also possible to create individual designs and final drawings on request. These will be invoiced by us at cost. An exact reproduction of the desired shade depends on the colour and condition of the item. For darker surfaces, white may be required.

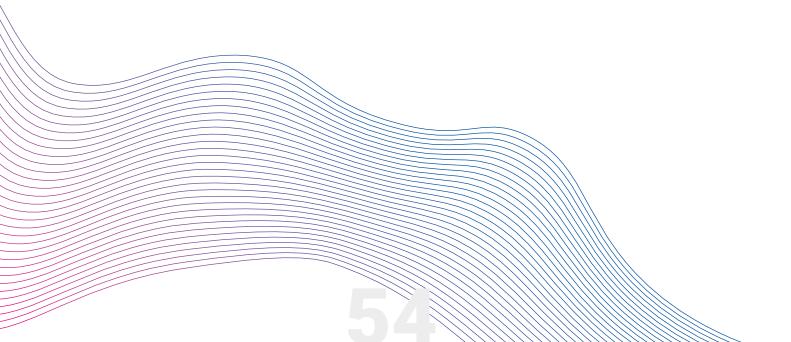

Deliveries to new customers and abroad are made against prepayment or cash on delivery or irrevocable letter of credit.

The contractual relationship shall be governed exclusively by the laws of the Federal Republic of Germany. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German Private International Law (IPR) do not apply.

Errors and misprints excepted.
